PLANER

SKID STEER ATTACHMENT

**NOT JUST YOUR AVERAGE
LAND PLANER ...**

This aggressive, multipurpose, affordable leveler is the perfect solution for site preparation. It cultivates, cuts, grades, and levels. The optional hydraulic scarifying teeth and bidirectional cutting edge enables you to use this in two directions – forwards and backwards – saving both time and money.

FEATURES

- Level and grade landscape jobs faster
- Save time and labor
- Use for cutting or grading, sod peeling, dirt clod pulverizing
- Multidirectional tool
