TREE SPADE

SKID STEER ATTACHMENT

**YOU'RE GOING TO
DIG THIS...**

Turn your skid loader into a high-speed, labor-saving transplanting unit. A tree can be dug or transplanted without the operator having to leave the loader. Spade is designed with a very short frame reducing the need for stabilizers and counterweights. The blades of the tree spade overlap to ensure clean root cutting and support of the root ball.

FEATURES

- Tree Spade comes complete and ready to use, including all-hydraulic hoses, couplers, and controls
- Good for transplanting hardwood trees to 2 1/2" diameter and evergreens to 3"
- Three steel cutting blades are 3/8" thick
- Adjustable control valve stand
- All joints outfitted with grease fittings
- Removable blades for easy sharpening
- Short frame design for increased down-pressure reducing the need for rear stabilizers
